Tumblaren Class State Championship for 2017 March 25/26.

80 years have now passed since the Royal St. Kilda Yacht Club (now Royal Melbourne Yacht Squadron) selected the Knud Reimers designed Tumblaren as the clubs one design class. These Royal St.Kilda YC decision makers of the day would never have guessed that after 80 years, their decision is still being vindicated as farsighted. A fleet of 7 Tumlarens are still being actively and competitively raced at RMYS. The largest racing fleet of Tumlarens world wide.

To celebrate the 80th anniversary year of racing on Port Phillip, the Tumblaren Association have struck a special medallion for presentation to all participating Tumlarens

After a 20 year hiatus, the Royal Melbourne Yacht Squadron is conducting the Tumblaren State championship series for the revitalised Tumblaren Fleet, and have re-activated the T.L. Banks trophy. This magnificent trophy, which features a glass walled cabinet with an enclosed Tumblaren model, is presently located in the RMYS members bar.

The RMYS administration and members congratulate the Tumblaren fleet on their 80th consecutive year of racing at RMYS and bid them fair winds for their State Championship.
